Alok Bhanawat

Udaipur, Rajasthan | +91 7597595146 | alokbhanawat@gmail.com | LinkedIn | Portfolio

OBJECTIVE

Software Engineer with knowledge of software development and testing, passionate about learning new technologies and building reliable, efficient software solutions.

EXPERIENCE

Systems Engineer Aug 2026 – Present
Infosys, Pune

- Developing Java-based application components and automating test suites with Selenium WebDriver and TestNG for Financial Services projects.
- Designing and executing functional and automated test cases; reporting and troubleshooting defects with development teams.
- Following SDLC and STLC practices to deliver reliable, scalable software.

Software Developer Intern Aug 2025 – Aug 2026
Infosys, Chandigarh

- Built features for an end-to-end web application (POC for Infosys Electronics) and performed manual and automated testing.
- Implemented admin-key authorization and role-based access control to prevent unauthorized privilege escalation.
- Optimized workflows and testing processes, contributing to an estimated 80% improvement in application efficiency.

Frontend Developer Intern Jun 2024 – Oct 2024
Ndimensions Studio LLP, Udaipur

- Developed responsive web apps and WordPress sites using HTML, CSS, JavaScript, and PHP, including custom themes and interactive carousels.
- Optimized pages for cross-browser compatibility and performance on desktop and mobile.

PROJECTS

Infi Electronics – Full Stack E-commerce Web Application (Under Development)
Full-stack e-commerce app using Java, Spring Boot, Node.js, MySQL, Razorpay, and Selenium with product browsing, authentication, Razorpay payments, and Cash on Delivery; manually and automatically tested.

FashCart – Full Stack E-commerce Website (Self Project) Live Demo
E-commerce site using React.js, Node.js, and MongoDB with user authentication, product browsing, cart management, and purchasing.

Edumind – University Student Guidance Website Live Demo
Student guidance platform built with React.js, providing academic resources, course information, and inquiry functionality.

Battfit – Vehicle Battery Brand Website Live Demo
Responsive WordPress website using HTML, CSS, JavaScript, and PHP to showcase vehicle batteries and improve customer engagement.

Flight Booking Automation – MakeMyTrip GitHub Repo
Automated flight search and booking workflows using Java, Selenium WebDriver, and TestNG, covering key functional scenarios.
